The Pandemic Didn’t Stop Us

COVID-19 did not stop us from serving families with young children. In fact, all of our Family Support and Early Head Start Centers were either open or providing virtual services to families throughout the pandemic. In fact, at some Centers, participation rates for families attending events and receiving services doubled during the pandemic, indicating that needs in the community had intensified. All our Centers distributed food, diapers, personal hygiene kits, household cleaning items, books, as well as child and adult activity packets to support families during the pandemic.

An Infusion of Funds

Thanks to expanded federal funding from the American Rescue Plan, we were able to hire an additional Program Consultant and add an Assistant Director to our EHS team.

Growing to Meet the Needs

As a result of the passage of the landmark Blueprint for Maryland’s Children, MFN laid the groundwork this year for an expanded Family Support Network. To that end, two community-based organizations have been awarded contracts to open Family Support Centers. The first is the United Way at Excel Academy located in a high school which serves young parents. The second is in Southern Maryland where we have joined our long time partner in that region, the Promise Resource Center. Several more Centers will open in the coming fiscal year.

Strengthening Families

Congratulations to over 30 parents from across our Network who completed the Leadership Institute for Parents which teaches leadership, decision making, critical thinking, effective communication, and public speaking skills. Great things lie ahead for them!
**FAMILY SUPPORT BY THE NUMBERS**

During FY22 our 12 Family Support Centers served 909 children.

- 90% of parents say they would recommend the Family Support Center to friends or family who are in a similar situation.
- When asked, "How well has your center met your needs," 56% of parents said "extremely well" and 34% said "very well."
- When asked if their Center "strengthened your relationship with your child," 38% of parents said an "extreme amount" and 44% said "very much."
- 39% of parents "strongly agree" that "my family unit is stronger as a result of attending this center" and 45% say that they "agree."

**EARLY HEAD START BY THE NUMBERS**

During FY22 our 19 EHS Centers served 667 families with 744 children.

- 94.1% of children were up-to-date on immunizations.
  (up 4.3% over the enrollment year)
- 87.2% of children had a dental home.
  (up 6.6% over enrollment year)
- 93.4% of children diagnosed with a chronic medical condition received medical treatment.
- 35.1% of families experiencing homelessness acquired housing during the enrollment year.
Quality child care is at your fingertips.

During COVID-19, Marylanders couldn’t help but feel isolated from each other. So when parents needed safe child care, they turned to MFN. We let them know they were not alone. MFN’s LOCATE: Child Care has the experts, advice, and referral specialists to help parents when they need it most.

So how do you decide which child care provider is best for your family? Easy. Always go for quality.

To make sure parents found the care they needed during COVID, LOCATE: Child Care walked parents through exactly what quality means such as the teacher’s experience, adult to child ratio, identifying safe environments, nutritious foods, and other factors. We were also ready with the latest information about the cleaning protocols in child care programs as well as current information about social distancing, masking, and other health and safety protocols to keep young children safe.

We do this during a pandemic and during the best of times, because quality never goes out of style.
PARENTS LOVE LOCATE: CHILD CARE!

We asked parents to tell us what they love about LOCATE: Child Care, they said it is the service and helpful information.

94% of families rated LOCATE: Child Care as "Good" or "Very Good."

91% of families said they would use LOCATE: Child Care again.

94% of families found the education materials that they received from Resource Specialists to be useful. This includes information related to child care as well as additional family support resources.

FAMILY RESOURCE SPECIALISTS

Parents are super busy. That's why MFN’s Family Resource Specialists are here. Whether you’re looking for child care, help paying for care, or just trying to find resources to help you along in your parenting journey, MFN’s Family Resource Specialists have you covered.

Family Resource Specialists are experts in early care and education who support parents and other caregivers as they navigate the ever growing amount of child care and parenting information that’s out there. Family Resource Specialists help them weed through it all to find what’s needed to nurture your child to be productive and to grow up healthy.

On our free telephone service, LOCATE: Child Care specialists helped 1,757 parents find and select care for 2,230 children that was best suited to their individual needs, preferences, and ability to pay. Online, 13,335 users conducted 38,201 searches for child care.

Meanwhile, in May 2022, the Family Resource Specialists began a new service: helping parents understand, navigate, and submit applications to the Child Care Scholarship program. We look forward to helping thousands more in this effort every year!
2022 was the right time for Time to Care.

TIME TO CARE
After years of work culminating in a veto override on the final weekend of Session, Maryland became the tenth state (plus the District of Columbia) to establish paid family and medical leave. HB 496 / SB 275 “Labor and Employment – Family and Medical Leave Insurance Program – Establishment (Time to Care Act of 2022)” will create an insurance fund to provide partial wage replacement for workers taking time away from jobs to care for new babies, loved ones with serious health conditions or disabilities, or themselves.
In an extraordinary sweep, eight pieces of legislation that focused on the needs of young children, their families, and child care providers won passage, most of them on Sine Die. The centerpiece of the package—HB 995 / SB 920 “Early Childhood Development – Child Care Scholarship Program – Alterations and Study”—will establish presumptive eligibility for child care scholarship applicants pending final determination. The bill also removes the requirement that applicants pursue child support enforcements, eliminates copayments for parents enrolled in certain safety net programs (such as WIC), mandates prompt payments for providers, and requires streamlining of the scholarship application itself. Other bills in the package provide targeted sales tax relief for new parents, codify and increase funding for key early childhood mental health initiatives, and dedicate resources for child care stabilization, capacity expansion, and hiring and retention.

Don’t believe the doom and gloom reports that nothing much gets done in the hallowed halls of our legislature. This past year has shown us that legislative victories are quite possible thanks to the combined efforts of all of Maryland’s early childhood advocates.
Under the new structure, each Child Care Resource Center (CCRC) will still have at least one main office, but they have established multiple collaborative partnerships to utilize space throughout each jurisdiction. Instead of driving up to an hour away to the CCRC headquarters, collaborative offices make coaches available at the local library, Judy Center, coffee shop, or other location closer to provider’s businesses. Providers are still welcome to come to the CCRC to utilize various resources such as laptops, scanners, photocopiers, and of course, to meet with a coach or specialist.

Ultimately, the greatest benefit of these changes will be felt by Maryland’s families with young children who will have increased access to quality child care in their communities.
**TRAINING, COACHING & TECHNICAL ASSISTANCE**

Here's a few good reasons why so many people look up to us!

During FY22 MFN and the MCCRC provided:

- **5,118** professional development hours and
- **1,390** training workshops for
- **20,458** attendees.

MFN and the MCCRN also conducted:

- **2,180** individual technical assistance activities and
- **104** group in-person group sessions and
- **633** group virtual sessions. As well as
- **9,962** individual contacts*

*Individual Contacts are technical assistance activities provided in a single point of interaction, through phone or email, a visit to the resource center for in-person assistance, or a visit to the program.*
Champions for Children, our multi-year giving society, is dedicated to improving the lives and opportunities of Maryland’s youngest children, their families, and early care professionals across the state. Our esteemed Champions not only ensure the organization’s financial sustainability for many years to come, but also ensure that we remain the state’s preeminent voice for the youngest, most vulnerable children regardless of the latest trends or political climate.

Become a Champion for Children by making a pledge to donate $1,000 or more annually for the next five years. If you are interested in becoming a Champion for Children, please contact Development Director Jennifer Andiorio.
